

Light The World

Light the world!
I beseech you:
Let them know the truth of day;
Give them candles,
That in darkness
They may find their way.

Light the world!
I implore you:
Reach right up and light the sky;
Give them truth,
For without truth
Living is a lie.

Light the world!
I beg of you:
Light others' candles as you go;
And how much better
Life will be
With all the world a-glow!
